## I. ADMINISTRATIVE INFORMATION

---

### A. PURPOSE

The Cities of Linwood and Northfield, hereinafter referred to as Cities, are responsible for providing basic life support (“BLS”) emergency medical services (“EMS”), including emergency response and patient transportation, to all citizens and visitors of the Cities.

In 2009, the Cities determined that it was in the best interest of the Cities that emergency medical services are provided by a qualified agency under the auspice of a bid format. Through the bid format, the Cities can request desired aspects of an emergency health service to be provided by those who service the Cities, and ensure that those elements are available to the Cities. Therefore, it is customary to issue a solicitation that describes the services desired and which request responses from interested organizations.

The following Request for Proposals (“RFP”) seeks responses from qualified organizations to provide and manage the emergency medical system for eligible residents and visitors, as further stated. The Cities are seeking a qualified health care organization to provide comprehensive emergency medical services to any residents or visitors to the Cities who are in need of such services.

The Cities are seeking to ensure appropriate access to emergency medical services, provide the community with a high standard of care, and improve the efficient use of limited medical care resources. **The Cities desire a three (3) year contract with two successive, one-year renewal options for the Cities.**

Proposals are welcomed from individual or group medical practices, clinic organizations, non-profit health service/providers organizations, health care corporations (including prepaid health plans and health maintenance organizations), hospitals or through a combination of the above. Of interest are organizations with demonstrated commitment to providing linguistically and culturally sensitive, quality, efficient emergency medical care services and community education and interactions to the Cities.

### B. OBJECTIVES OF THE REQUEST FOR PROPOSAL (RFP)

1. To provide data necessary for preparation of proposals.
2. To provide a fair method for objectively analyzing submitted proposals
3. To result in a contract between the successful bidder (unless all proposals are rejected) that will provide the following for the Cities:
  - Quality, cost-effective, basic life support, emergency medical services for the Cities, including emergency response and transportation;
  - Development and implementation of an emergency medical services program with clear objectives, policies and procedures, and a process for documenting ongoing achievement of contract obligations;
  - Utilization of appropriate emergency medical service personnel, in accordance with their scope of practice, who are certified, as required in New Jersey;

REQUEST FOR PROPOSAL FOR BASIC LIFE SUPPORT EMERGENCY MEDICAL SERVICE  
RESPONSE AND TRANSPORTATION SERVICES

- Administrative leadership that provides for both cost accountability and responsiveness to the contract administrator;
- Assurance that required state and federal requirements, and community standards of care are met;
- An emergency medical care system that is respectful of the patients' rights to medical care and delivers care in a respectful and culturally sensitive manner.
- An emergency medical care system that is geographically accessible, throughout the Cities, within predefined time limits.

2. To design a delivery system that provides continuity, stability and meets the community standard of care.

**B. EMS RESOURCE AVAILABILITY**

The Cities will provide access to a building designed for a BLS EMS service, which shall be strictly used for the Cities EMS services. The Contractor will, in addition to the above, provide stand-by coverage to the Cities Fire and Police Departments when requested to do so and until released by either the fire or police officer in charge of the incident. These services may include typical emergency health services in addition to various other services, such as the health screening and monitoring of emergency responders.

The disaster response plan should be thorough and provide not only for disaster response, but also an annual disaster response simulation training exercise. Participation in an Atlantic County or other appropriate regional disaster planning/drill on behalf of the Cities is acceptable. The disaster response should incorporate resource utilization from mutual aid venues and should address providing mutual aid disaster response to surrounding communities.
